Experience

Virim Infotech Pvt. Ltd. / Graphics, UI/UX Designer

October 2018 - PRESENT, Indore

Design useful and elegant digital experiences across the company-wide products and product services.

Take requirements from client calls, stakeholders, and project managers then analyze, wireframe, and then convert it into mockups and prototypes.

Majorly worked in the healthcare industry dealing with HIPAA compliance.

Fostered collaboration and consistency across teams by working closely with stakeholders, project managers, and engineers.

Mentored junior trainees and interns with standards and best guidelines of front-end development and designs.

Create and manage the social media posts across LinkedIn and Instagram

Accenture / Associate Software Developer

May 2018 - September 2018, Mumbai

I Have been part of their training module, where I have been allotted with java language and led the team of 4 members for a prompt assignment project.
